healing spa at Casa de Campo

For your pleasure and indulgence the Cygalle Healing Spa at Casa de Campo provides a wide range of massages, facials and body treatments to complement the sporting options and relaxing influences offered by our resort.

All of our treatment rooms are luxurious suites that can accommodate simultaneous treatments for couples, family members or friends.

**All of the products used in our facials are 100% pure and holistic.**

Organically grown plants and oils are holistic by nature and the minimal processing allows their substance integrity to remain intact and vital. These substances better nourish and absorb into the skin because their molecular structure has not been disturbed and hardened through high-temperature refining, bleaching, de-colorization, standardization and other processes.

Our formulas are produced frequently, in small batches to deliver the highest potency and freshness to you, the conscious user, whose skin knows and shows the difference! We offer simply the most vital skin care products available in the world.

**All of our facial treatments are sensory relaxing journeys that include a tension melting aromatherapy neck and shoulder massage.**

### Crystal Chakra Aromatherapy

50 minutes \$90

for two simultaneous \$170

According to ancient Indian philosophy, every person has seven main energy centers (chakras) in their body, and each has a color and frequency. Blockages in the flow of the prana or life energy between these chakras can create imbalance in the body and lead to loss of vitality and illness.

Practitioners place crystals or gemstones with harmonizing color and frequency on each chakra center to remove congestion, assist in restoration of prana flow and to promote well-being. In addition, a corresponding essential oil is applied to each chakra to heighten your sensory experience and aid in the restorative process.

Amansha Yoga is a form of Dynamic Healing Yoga that focuses on correct breathing as its primary tool for balancing all body systems, and opening of the heart chakra center. By implementing a series of positions called asanas, in combination with breathing, one can achieve greater strength, stamina, and flexibility. This class combines the techniques of Hatha, Kundalini, and Bikram, along with the principles of Amansha Yoga.

Amansha Yoga offers a profound avenue for chakra alignment and aura strengthening. In these changing times of global warming, increases in solar flare activity, and the oncoming of many more challenges to our genetic and spiritual well-being, our bodies are prone to greater environmental stress, as well as increased atmospheric radiation levels.

Amansha Yoga works to fortify not only the aura, but the immune system through holistic stimulation of the endocrine system. Our evolution as a physical/spiritual being counts on it. In Amansha Yoga, the breath is key.
